**\*\*3 YEAR OR 36,000 MILES, WHICHEVER COMES FIRST\*\***

## NON - CHASSIS MOUNTED UNIT

**\*\*3 YEAR WARRANTY\*\***

We believe in the durability of Stinar products and Stinar craftsmanship. Therefore, we are pleased to warrant all new Stinar manufactured products to be free from defects in material and workmanship under normal use and service for: (1) a period of 3 years or 36,000 miles (whichever comes first) for any chassis mounted unit; or (2) a period of 3 years for any non-chassis mounted units. Coverage under this Limited Warranty begins upon the date of invoice of the product to the first owner and continues to all subsequent owners until expiration of the period of coverage. More details on what is covered by this Limited Warranty are outlined below.

At Stinar, we recognize the urgency for Stinar products to be up and running and performing their best. Stinar is here to find you a solution regardless of warranty status of your product, the chassis our unit it mounted on, or whether your unit is based in the United States or internationally, so make us your first call whenever problems arise.

## AT STINAR, WE WORK FOR YOU.

To make a claim under this Limited Warranty, the owner must contact Stinar at 651-454-5112 before expiration of the period regarding any failure of a Stinar product, under normal use and service, caused by a defect in Stinar material or workmanship (a "Warrantable Failure"). Stinar will work with the owner's on-site repair/maintenance personnel to find a service solution for any Warrantable Failure and/or implement any necessary repair or replacement of parts due to a Warrantable Failure. If the owner does not have such personnel, Stinar will help locate personnel to assist. Unless otherwise agreed to by Stinar, the owner is responsible for all labor, travel (and travel-related), towing, or shipping expenses related to service under this Limited Warranty, except for expenses related to labor and/or travel by Stinar personnel. Stinar will, at its option, repair or replace any part that, after inspection by Stinar, is found to have failed due to a Warrantable Failure. In addressing a Warrantable Failure, Stinar may use new or remanufactured parts for repair or replacement, at its option.

The owner is responsible for the operation and maintenance of the product as specified in the applicable Stinar manual and is responsible for providing proof, to Stinar's satisfaction, that all recommended maintenance has been performed. Stinar is not responsible for chassis-related repairs for chassis mounted Stinar products, but we will work with you to find a solution. Stinar is also not responsible for "downtime" expenses, passenger delays, cargo damage, fines, taxes, business costs, or any other losses resulting from a Warrantable Failure.
